SPIRO

BREATHE TO PERFORM

Result®

HIGH TECH ENDURANCE

The new RESULT® Spiro range blends the latest high performance fabrics and cutting edge technology with designs that meet or exceed the rigorous requirements of the wearer under tough workout conditions.

All RESULT® Spiro garments are stylish, fit well and have been produced in two versions, one for men, another for women. The highly breathable fabric actively wicks away any perspiration vapour from the skin keeping you dry and comfortable, regulating your temperature as you work out.

ThermoCool™ Technology

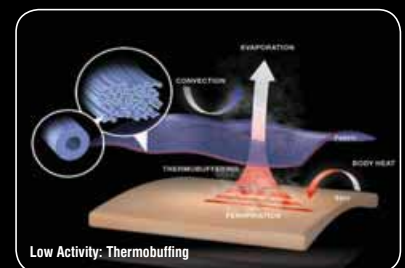

A new technology answering consumers' expectations

FEELING TOO HOT OR TOO COLD?

We have all experienced these two extremes and contrasting sensations during the same day or a particular activity and their negative aspects on comfort and performance.

ADVANSA ThermoCool™ is designed to optimise the body's natural thermoregulation capabilities through smart fibre cross-sections: providing evaporative cooling or thermobuffering according to the wearer's needs.

SEE PAGES 110-111 FOR DETAILS

Coolactive™ Thermocool Polo Shirt

Code: TA004

Weight: 260g/m²

Coolactive™
